Welcome to my Synth Related Website. The purpose i have build this website is to offer Tips and Tricks in Programming Synthesizers, You can find articles on programming Old Vintage Synths up to Modern Virtual Analog Synts.

We will also Provide Many Reviews for various newly released Synthesizers.

You can also contribute to this! if you have good writing skills and you want to submit a review, please register to the site, and the forum and submit your review and any pictures you have for it. After moderation it will be formatted and posted in the reviews section giving credit to you!

In the meantime you can check various other sites offering synthesizer reviews and synthesizer articles
