Release of Spectrasonics Stylus RMX Xpanded

Spectrasonics

released today, Stylus RMX Xpanded, which includes the world-renown Stylus RMX Realtime Groove Module virtual instrument software. It includes all five of the company's award-winning S.A.G.E. Xpander expansion libraries: Backbeat, Retro Funk, Metamorphosis, Burning Grooves and Liquid Grooves.

The new package is priced at only \$399US/€349Euro — saving you almost \$400 US off the combined price of the individual titles. .

Stylus RMX Xpanded includes:

- Stylus RMX: Realtime Groove Module virtual instrument for Macintosh and Windows
- Backbeat SAGE Xpander: Live Acoustic “Straight-ahead” drum grooves
- Retro Funk SAGE Xpander: Authentic vintage acoustic sound, feel & classic grooves
- Burning Grooves SAGE Xpander: Maximum impact, aggressive live drum grooves
- Liquid Grooves SAGE Xpander: Acoustic ethnic drum and percussion grooves with unique processing
- Metamorphosis SAGE Xpander: 21st Century remix grooves designed by producer Eric Persing
- Multi Library: Hundreds of amazing Multi-groove patches that combine the Xpanders in creative ways
- Bonus Section: Unique grooves from Vocal Planet, Distorted Reality and more
- A total of over 13 Gigabytes of massive sounds and grooves

This sample pack is fully compatible with all current Mac OS X computers including the newest Intel Mac hardware, and also with all current Windows PC s including Vista. The Stylus RMX Xpanded package also includes Stylus RMX and 5 bundled Spectrasonics SAGE-Xpanders: Metamorphosis, BackBeat, Liquid Grooves, Retro funk, Burning Grooves.

The suggested retail price is: \$399 - USD / €349 - Euro.
